FURTHER ANNOUNCEMENTS — All information contained in this catalog is correct to the best of our knowledge at the time of printing. Announcements made from the auction block Monday, Sept. 22, 1969 will supersede any material printed in this catalog.

Louie Soutier's decision to divide his herd with the public was not an easy one for him since he wanted to be sure that breeders would not think he was culling the herd. This he has definitely not done but in a very conscientious way fairly selected the sale cattle so that the ones selling are representative of the best he has.

The Soutier herd has a fine reputation in southern Illinois and Louie has actively supported the sales in his area both by consigning top cattle to them and by buying the top cattle from them.

The Soutier show herd is a familiar sight at fairs throughout the state and always win their share. The entire 1969 show herd sells in this sale.

Gene McDonald

Plan to be on hand sale day and support one of the breed's foundation events, that of a dedicated Shorthorn breeder offering his best to the public.

Sincerely,

Gene McDonald

WEAN MORE THAT WEIGH MORE WITH SHORTHORNS

In these days of rising costs, cattlemen are looking to Shorthorns for crossing, because . . . they know a Shorthorn bull will add 50-60 pounds to the weaning weight of each calf. They know the resulting calf will be husky, fast-growing and freer from disease.

They know the replacement heifers will calve easier and give more milk.

They know the end result is more money in the bank. Join the swing to Shorthorns.

They know there will be a higher percentage calf crop with a Shorthorn bull in the pasture or on the range.
